ARMED MOBS CONTROLLED OMAHA LAST NIGHT

BETHLEHEM STRIKE OF STEEL WORKS SEEMS A FAILURE

None of the Mills Closed, and Production Will be Slightly Effected

Two Mills Reported Full Force, One Voted Against Joining the Strike

The steel workers attempt to extend the nation wide strike to the Bethlehem Steel company apparently failed today. A report indicated that none of the Bethlehem mills were closed. The response was so limited that its production will be slightly affected.

In South Bethlehem less than twenty per cent of the men failed to report this morning, it was said. At Steelton and Titusville practically a full force was reported. Employes at Sparrows Point, Md., voted overwhelmingly against joining the strike and the plants are operating today.

Aside from the apparent failure of the Bethlehem strike the steel workers appear to be losing ground for unionization of the United States Steel corporation and its subsidiaries.

In the important Pittsburgh district reports indicated today an increase in the number of men returning to work. The Carnegie Steel company was optimistic.

Announcement was made at the White House that the round table industrial conference which is expected to take up the steel situation will be held October 6 despite President Wilson's illness.

The situation is improved and government measures are working satisfactorily it was announced today.

Strikers Claim to be Winning

Pittsburgh, Pa., Sept. 29.—The steel strikers now will be granted their demand or starved into submission and compelled to return to work. Wm. Foster stated today. "I am convinced" he said, "that the steel workers are thoroughly organized. The steel industry is not shut down entirely, some plants are operating, but the normal production of steel has been lowered. "We are winning" that is all I can say."

15% Failed to Report

Allentown, Pa., Sept. 29.—Approximately fifteen per cent of the employes of the Bethlehem Steel Company at South Bethlehem failed to report for work this morning, it was estimated by police. There was no disorder.

Hundred Report for Work

Steelton, Pa., Sept. 29.—Hundreds of workers of the Bethlehem Steel Company's plant were reported for work this morning in face of the strike orders issued by Secretary Foster of the steel workers union.

Round Table Conference Must Meet

Despite the President's Illness—Who will Not be Able to Take Part

HUGH BAILLIE,
(United Press Staff Correspondent)

Washington, Sept. 29.—The round table conference set for October 6 will meet despite the illness of President Wilson, it was said at the White House today. The President however will be unable to take any part in the session.

It was definitely announced the King and Queen of Belgium will tour the country before coming to Washington as guests at the White House. The plans were for the royal couple to come here first. A bulletin on the President's condition will be made public later today by Dr. Grayson, the President's physician.

President Wilson "Has Something Up His Sleeve"

Which He Intended to Spring in Last Address—Will Issue Statement

BY HUGH BAILLIE,
(United Press Staff Correspondent)

President Passes Restless Night
President Wilson had a restless night but is sleeping this morning, a bulletin by Adm. Grayson, the President's physician said today.

Washington, Sept. 29.—President Wilson as soon as his health will permit will issue a statement regarding the ratification of the peace treaty which his break-down prevented him from making at Little Rock, Arkansas City, Memphis and Louisville.

Before he began here, it was learned that "he had something up his sleeve" and that he was saving ammunition for a conclusive address and to finish the trip for ratification in such a manner that the world wide situation would be riveted, returning to Washington primed for a showdown on acceptance or rejection of the treaty, but illness prevented this plan.

It was considered possible he would take the first opportunity to use his prize argument. It was considered possible that the conference set for October 6 would be called off or postponed.

Announcement was made at the White House that the round table industrial conference which is expected to take up the steel situation will be held October 6 despite President Wilson's illness.

The situation is improved and government measures are working satisfactorily it was announced today.

Italian Chamber Wants Fiume

Officially Goes on Record by Unanimous Vote to That Effect

CAMILLO CIANFARRA,
(United Press Staff Correspondent)

Rome, Sept. 29.—Italy, as represented by a Chamber of Deputies, officially placed on record today as she urged that Fiume be incorporated with the national boundary. Voting by acclamation at the Sunday night session, the Chamber unanimously affirmed that Fiume should be granted to Italy.

Confidence in the government's ability to obtain Italy's desire was expressed by a vote of 208 to 148.

Mine Workers Demands Rejected

Will Call Strike November 1st if Demands are Not Conceded

Buffalo, N. Y., Sept. 29.—Demands of the United Mine Workers of America for a six hour day and five day week and 60% increase in wages and other concessions were formally rejected by officials in the central district today. It embraces coal mine owners of Wisconsin, Pennsylvania, Ohio, Illinois, and Indiana.

The miners have set November 1 as the date for the nation wide strike of miners if the demand is not granted by that time.

Flu Cases Becoming Numerous

St. Paul, Minn., Sept. 29.—Nine cases of influenza and twelve from districts throughout the state have been reported to the state board. The executive committee of the board will meet Tuesday night to discuss plans for prevention of the return of this epidemic in the state.

BRIG. GEN. HERBERT M. LORD

Brig. Gen. Herbert M. Lord, director of finance in the war department, is one of the few officers of his rank to receive a permanent commission corresponding to his temporary rank. He was awarded the distinguished service medal. His enterprise and general thoughtfulness in his work earned for him the affectionate title of the "Uncle Sam of the Army."

Kills Woman to See Husband With Another

(By United Press)

Milwaukee, Wis., Sept. 29.—The sight of her husband with another woman caused the death from heart trouble of an unidentified, well dressed woman on the corner of 4th and Grand avenues last night. The husband with the other woman went on their way.

The woman had told a traffic official she had obtained a warrant for abandonment and said she had seen her husband with another woman and at that moment she pointed to a couple and said "There he goes with

with _____", then she fell dead.

Bonus Board Completes Organization

(By United Press)

St. Paul, Sept. 29.—The state soldiers bonus board completed organization today by appointing seventeen ex-service men and others as assistants.

The board sent to the printer the form of the questionnaires which will be furnished applicants. They will be ready in about ten days it was said.

Central Figures in Great Steel Strike

John Fitzpatrick
Samuel Gompers
Elbert H. Gary

Here are three central figures in the greatest steel strike in the United States. Samuel Gompers, president of the American Federation of Labor is said to have used his best efforts to have the strike postponed until after the industrial conference President Wilson has called for Oct. 6. John Fitzpatrick, as chairman of the Steel Workers' Organization Committee, locked horns with Judge Elbert H. Gary, chairman of the United States Steel Corporation. Neither would yield and the great struggle between capital and labor began.

Negro Assailant of Young Woman Lynched, Court House Burned

Mayor Barely Escape the Negro's Fate When He Defied the Mob

Omaha, Neb., Sept. 29.—Marshal law was declared in Omaha today following a night of rioting. Six hundred soldiers patrolled the streets and machine guns were placed in the vicinity of the court house and negro district. Mobs had dispersed and the situation appeared under control.

Summing up of the riot is as follows:

"Wm. Brown identified by Agnes Loebbecke age 19 as the man who assaulted her, was lynched and his body burned."

"Francis Clancy shot and killed when police fired on the mob."

"Mayor Edward Smith in a serious condition in a hospital injured when the mob attempted to lynch the negro and he refused to turn him over to them."

"The Douglas county court house in ruins from fire."

"Fifty six injured in hospital al."

Mayor Smith barely escaped the fate of the negro when he defied the mob. His last word with the rope around his neck and ready to be strung up was "I will give my life if necessary but will not surrender the negro and I am going to enforce the law." The opportune arrival of the police at that moment scattered the mob and cut the rope, when he was being lifted up and rushed him to a hospital in a passing automobile. His condition is critical, but he probably will recover. He was unconscious.

From 6 last night until troops arrived this morning the mob was in control of the town. They looted the gun and ammunition stores to obtain firearms and the police on the streets were overpowered, clubs were taken from them and many were seriously beaten.

Sheriff M. Clark and his deputies held the crowd at bay until the court house was set on fire. Gasoline was poured on the ground floor but police quickly extinguished this blaze but the mob obtained more gasoline from passing automobiles and poured on the second and third floors. When the flames shot up the crowd howled with glee. The sheriff

thirty-one men were arrested in connection with the riot and all were found to be carrying guns and ammunition and are being held without bail.

Sheriff M. Clark and his deputies held the crowd at bay until the court house was set on fire. Gasoline was poured on the ground floor but police quickly extinguished this blaze but the mob obtained more gasoline from passing automobiles and poured on the second and third floors. When the flames shot up the crowd howled with glee. The sheriff

thirty-one men were arrested in connection with the riot and all were found to be carrying guns and ammunition and are being held without bail.

Gen. Wood Goes to Omaha

Omaha, Neb., Sept. 29.—General Leonard Wood today telephoned Mayor Smith he was enroute to Omaha to take part in the attempt to quell the race riot. Wood said he had additional troops from Camp Grant, Illinois, and Camp Funston, Kansas to entrain for Omaha. Wood will arrive Tuesday.

Riot Spirit Still Prevails

Evidence that the riot spirit still exists came today in numerous fist fights throughout the city where the whites found negroes.

Mayor Smith regained consciousness but refused to make any statements.

Mayor Smith regained consciousness and was able to sit up. Physicians said he had been badly beaten about the chest. In his delirium he moaned continuously, "You shall not take him." After the mayor had been rescued the enraged rioters burned his automobile.

That the riot spirit which broke out Sunday still prevails was indicated by a number of street fights. Troops in the heart of the negro district were fired on by negroes. They returned the fire but no one was injured. Officials are fearful that race rioting on a larger scale will begin again tonight.

Forty negro prisoners were taken to the jail at Lincoln.

DR. ESTHER LOVEJOY

Serbia and the Near East are in the immediate program of the American Women's hospitals, the war work and reconstruction committee of the Medical Women's National Association of America. Dr. Esther Pohl Lovejoy of Oregon has been recently appointed chairman in charge of this work, with headquarters at 637 Madison avenue, New York city.

iff took the five hundred prisoners to the roof and proceeded to let them down by fire ropes. A number of men found their way to the rear of the building and lead by a man dressed in sailor's uniform a score of men grasped the ropes and overpowered the police and deputies. The negro was shoved through a door and taken down on a fire ladder and as soon as he reached the crowd he was stripped naked and shortly was strung up six-feet from the ground and was a target for shot guns and revolvers and then was taken down and his body tied to an automobile and dragged through the north side of the city, the negro settlement. Some of the mob had built a fire and his body was thrown on this and burned.

The mob was well armed as one of the largest gun and ammunition stores was looted before the attack was started.

Thirty-one men were arrested in connection with the riot and all were found to be carrying guns and ammunition and are being held without bail.

Gen. Wood Goes to Omaha

Omaha, Neb., Sept. 29.—General Leonard Wood today telephoned Mayor Smith he was enroute to Omaha to take part in the attempt to quell the race riot. Wood said he had additional troops from Camp Grant, Illinois, and Camp Funston, Kansas to entrain for Omaha. Wood will arrive Tuesday.

The resolution further stated that the attempt to thus anticipate action on the peace treaty was unwarranted. The resolution then was sent to the Senate Foreign Relations committee.

The introduction of the resolution started a hot debate in which Senator Hitchcock used the Fiume situation and in Dalmatia as the text for an admonition to the senate on the folly of further delay of the treaty ratification.

He was heckled by Republicans who declared American marines were ordered by the British Admiralty or the supreme council body and not by the American constitution.

Knox who last week presented a request for information asked for a reply regarding the situation. Vice President Marshall said he had had no answer.

Reports from Crown claim four men stole a horse and buggy just outside of the city and rode into town and stole a small automobile, wrecked the car outside of town, and stole a larger one. Three car loads have left Elk River in pursuit.

No Cars to Ship Potatoes

Thousands of bushels may be total loss because cars are not available

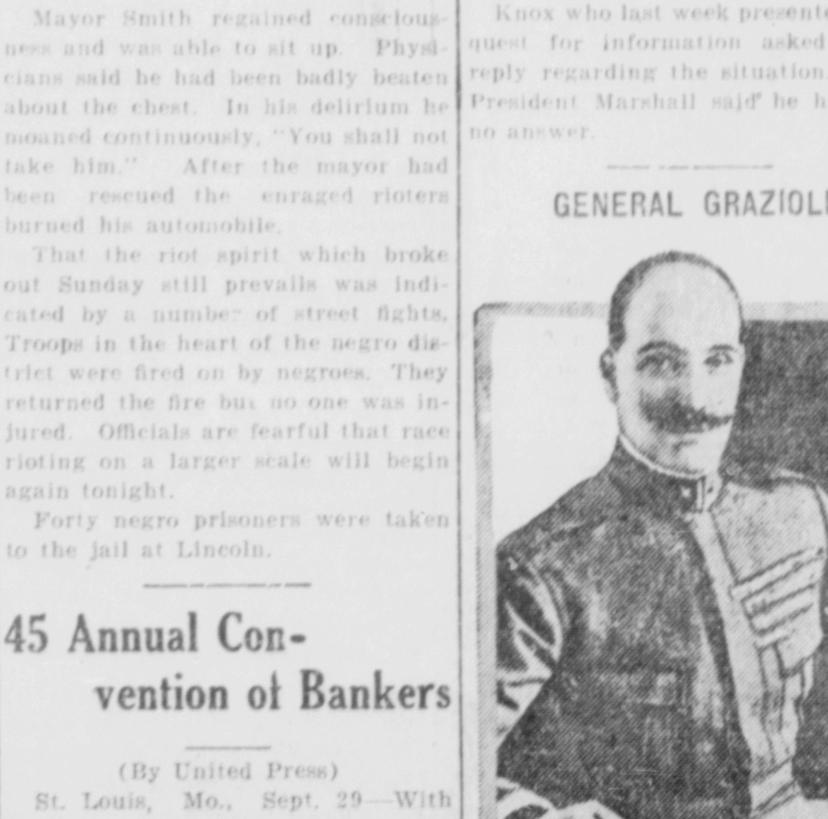

(By United Press)

Elk River, Minn., Sept. 29.—Deputy sheriffs and armed farmers today are hot on the trail of the men who stole an automobile at Crown, Minn., early this morning.

It is thought the men may be the bandits who killed Foley last night in a gun battle between automobile drivers and deputies.

Reports from Crown claim four men stole a horse and buggy just outside of the city and rode into town and stole a small automobile, wrecked the car outside of town, and stole a larger one. Three car loads have left Elk River in pursuit.

GENERAL GRAZIOLI

General Grazioli is the Italian officer who holds the extremely difficult post of military governor of Fiume.

BRITISH R. R. STRIKE STILL ON, NEXT 48 HOURS CRITICAL

Preparedness of Government to Meet the Situation Surprises the Strikers

Second Week of Steel Workers Strike is Crisis of big Struggle

Sympathetic Strike by Transport Federation is a Disquieting Feature

By ED. L. KEEN
(United Press Staff Correspondent)

London, Sept. 29.—Great Britain is a nation without transportation today. The next forty eight hours will prove the most critical period of the strike.

The government's effort to operate a skeleton service was partly successful today on both local and long distance lines. Volunteers and workers not belonging to the union were at work. Trains from London to Folkestone departed today.

Early reports from the mills indicate favorable increase in man power.

Pittsburgh, Pa., Sept. 29.—The dawn of the second week of the steel strike opened in what labor leaders term the crisis of the gigantic industrial struggle.

WOMAN'S REALM

JUNIOR CELEBRATION

Picnic at Gilbert Lake Thursday Was a Great Affair—Best in Years

The Junior celebration referred to in this paper a few days ago took place in the form of a picnic at Gilbert lake Thursday night. And some picnic! The boys' adjective is "great", while the girls insist on applying "wonderful" or "glorious" to the time everyone enjoyed. Even the faculty admit that it was the best high school picnic they have ever attended.

The guests, numbering about sixty, were transported from the school to Gilbert lake in cars volunteered by certain obliging Juniors. There they consumed the delectable refreshments supplied by the hard-working refreshment committee.

The baseball game between the faculty and the Juniors following supper was a huge success and proved that the committee on entertainment possess originality as well as a sense of humor. The line-up was as follows:

Umpire—Abner Swanson.
Faculty—Mr. Scherick, Mr. Marker, Mr. Bacon, Miss Pierce, Miss Tornstrom, Miss Nelson.

Juniors—E. Erickson, C. Sheffo, B. Vees, G. Senn, V. Murray, I. Rowley.

Darkness closed in on the fourth inning with the score 6 to 3 in favor of the Juniors. The faculty dread to think of what the score might have been had the game been finished. The party then adjourned to the pavilion where another enjoyable hour was spent, after which everyone was conveyed to his home.

The Juniors' solace to the Seniors is: "Cheer up! You're never too old to learn"—(how to make a party a success).

Tomlinson-Flahave

A wedding kept secret for weeks has been made public, that of Miss Harriet Tomlinson, daughter of Mrs. Carrie Tomlinson, to Jack P. Flahave which occurred September 7 at the parsonage of the Methodist church in St. Paul. Rev. Edwin Cook officiating.

The bride is a charming young girl who has been an operator of the telephone company and for a time with the Western Union. The bridegroom as a passenger brakeman on the St. Paul run of the Northern Pacific.

Their wedding trip was spent visiting relatives and friends in St. Paul, White Bear and Morris.

They are at present in apartments at the Palace hotel, but later may remove to White Bear or St. Paul.

Their many friends united in extending best wishes for their continued happiness and prosperity.

Entertain for Guest

Mr. and Mrs. Odin Naustvold gave dinner party Tuesday evening in honor of Mrs. Louisa Mysen of Brainerd, who has been the guest of M. J. Quam and family. Covers were laid for eight and all report a very enjoyable evening.—Walker Pilot.

Entertains at Cards

Mrs. J. A. Evert entertained at cards Saturday evening, three tables being played. The ladies prize was won by Mrs. W. A. Erickson and the gentlemen's by Frank G. Hall.

Parent-Teachers

The Parent-Teachers association of the Whittier school will meet Tuesday evening, October 30. A good attendance is desired.

Supper and Sale

The Ladies Aid of the Evangelical church, corner of Forsyth and Fourth avenues Northeast, will give a supper and sale at Trades and Labor hall, Sept. 30. Supper will commence at 5 o'clock. Everyone come.

Mission Society

The home and foreign mission society of the Swedish Lutheran church will meet tonight at 8 o'clock at the home of August Lind, 619 South Tenth street.

Natural Barometer

One of the simplest of nature's barometers is a spider's web. When there is a prospect of wind or rain the spider shortens the filaments by which its web is sustained and leaves it in this state as long as the weather is variable. If it elongates its threads, it is a sign of fine, calm weather.

For Men Who Work Hard

Men who work at hard physical labor are subject to kidney trouble. J. G. Wolf, 734 S. Jackson St., Green Bay, Wis., writes: "Foley Kidney Pills relieved me of a severe backache that bothered me for several months. A few bottles fixed me up in good shape." They also relieve bladder and urinary ailments. H. P. Dunn.

BRAINERD MUSICAL CLUB

Memberships in the Club Should be Taken Out Now and Will Gain Publicity in Year Book

Memberships in the Brainerd Musical club are eagerly sought for this year as the club offers a fine instructive and entertaining program of the best in music. In nearly every instance members are renewing memberships and furthermore are inducing their friends to join.

By joining now, all will be able to have their names listed in the year book soon to be published.

Japanese Rockefeller

A formidable oil field described by William Dietrich in a recent issue of the Petroleum Age lies in the Higashiyama district on the Sea of Japan. "Cooles dig a hole with a pick and shovel," says the writer, "and crib or brace the walls as they go down. Their wives pull up the dirt and the shale. Some of these hand-dug wells are exceedingly deep, and the natives pump air into them with an old-fashioned blower.

"The field covers about sixteen square miles, and in this are several producing wells. The largest of these produce about ten koku (or 480 gallons) a day. Other wells furnish not more than five gallons daily.

"It is a common practice for the head of a family to go to the oil wells with two of the familiar five-gallon oil-tins hanging from a yoke about his neck. He carries the tins, filled with crude oil, from five to seven miles to his little home refinery, and the whole family then turn to and help him refine it. When that is finished, the children take the oil to residential districts nearby, and peddle it from house to house in one or two sen lots."

Incompleteness

How universal is the sense of incompleteness in human experience! Youth, maturity and even old age are ever reaching for the something else which they crave for the hour, which seems to be the essential need of the year while we occasionally meet natures who are bending every force of their working years to the end of sustaining some great ambition, failing in which, life to them is but a fraction.—Robert Carroll.

What Bulk Storage Means to You

ONE of the major services which the Standard Oil Company (Indiana) renders you, is to maintain at all times, at convenient points throughout the territory it serves, large storage tanks filled with gasoline, kerosene and lubricating oils for quick delivery to you when you need them.

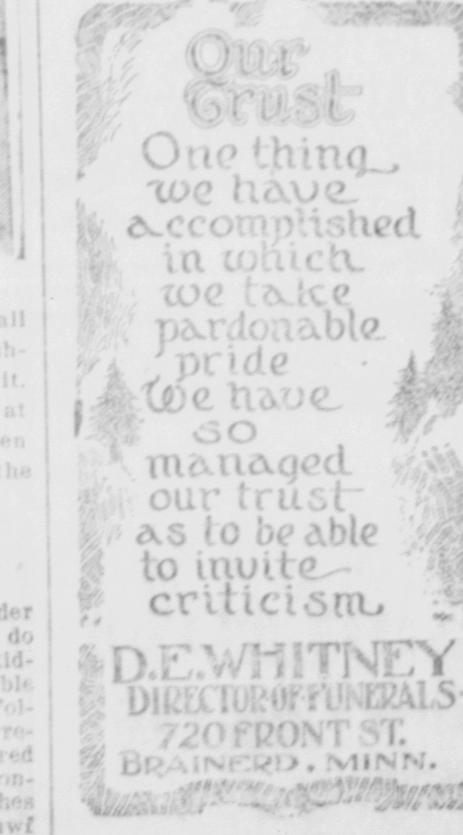

PHOTOS

There's no period of life in which the changes are so rapid, the stages so interesting or the memory so well worth keeping as the period of childhood.

Keep the Record in Photography

Lars Swelland
Opsahl Block Tel. 234-L

Assume for a moment what would happen if severe weather or unforeseen transportation conditions should cut off deliveries from the refinery for a week, and that no appreciable surplus was available.

You would walk for your groceries. Your physician would be slow in arriving in case of sickness. Business generally would suffer through inability to make deliveries.

In a word, unless the Standard Oil Company (Indiana) maintains a tremendous surplus in the field at all times your domestic and commercial welfare would be jeopardized.

This vast storage of 156,528,950 gallons is but a single cog in the giant wheel of usefulness which the Standard Oil Company (Indiana) operates in discharging its obligations as a public servant in a manner satisfactory and beneficial to all.

AMERICA'S FIRST

The American Legion will be the G. A. R. of the future half century of this country. Its work will be to "carry on" as has the G. A. R. in keeping this country safe for its own self-government, in keeping it American true to American ideals and to representative democracy, and in perpetuating the records of the war.

It will have a great work of helpfulness among its own members and a great source of pride in having been of the greatest military and naval force ever organized in this country. We envy every man in it. Theirs has been a privilege denied to older men.

We may protest and proclaim our love of country and willingness to sacrifice for it; the button of the American Legion is the undeniable proof of this for every man who wears it. That button will give him a standing in his community and state an influence among his fellows that is well worth its cost in sacrifice.

The organization is both nonpolitical and nonpartisan. That it can and will be both the G. A. R. has amply proved. It has enough to do beside in the plain, simple obligation of preserving for future generations the splendid ideals from which the army and navy it represents, sprang.

Its pledge is big enough to call for the devoted work of every one of its members. It alone will keep them in the service of their birth as an organization. The institutions of this country should be the most precious heritage of all of us. Who holds the offices is secondary. It is enough for all of us to be Americans, but to wear the American Legion button is and should be the crowning glory of any American.

We can feel too, what must be the personal satisfaction of perpetuating the associations formed in army and navy; the common experiences, pleasant and unpleasant; the close comradeship, and though maybe far sep-

arated, to still be in the same ranks and service with one's "buddy." There is sentiment as well as reality, memory as well as continued service.

This week is membership week. We cannot imagine anyone who has the right to join, not using it. We cannot imagine anything being permitted to keep a man entitled to that button from wearing it. It is the proudest possession any American can have and whether in this country or abroad, anywhere in all the world, it will be an enviable introduction.

It will bring in foreign lands a quick touch with millions who were in other armies and navies, and an instant bond. In our own land it will mark the wearer as one of the first of Americans. There should be just as many members as there are living survivors.

A prominent business man of Duluth, who always has had a part in public affairs was discussing the homecoming of the boys soon after the armistice. The change they bring back in their attitude to public matters was mentioned. He said,

"I do not know and I do not care what those boys want or think should be done. It will be enough for me that they think it right and best. I shall follow them."

This we believe is a very general feeling among those of us who said "Goodby, God bless you!" Whatever the American Legion stands for it will be American and we will follow them.—Duluth News Tribune.

Secured Wage Increase

Duluth, Minn., Sept. 27.—Employees of the Duluth Street Railway company have secured an increase in wages of 8 per cent. The new scale provides a minimum wage of 44 cents an hour. The old scale was 41 cents and prior to August 1 it was 38 cents. Those in the employ of the company more than one year will receive 46 cents an hour instead of 43 cents. Two-year employees will receive 48 cents as against 45 cents, and those who have served three years or more will receive 50 cents an hour.

A Foley Cathartic Tablet is a prompt and safe remedy for sick headache, biliousness, bloating, sour stomach, gas, bad breath, indigestion, constipation, or other condition caused by clogged or irregular bowels. They cause no griping or nausea nor will they encourage the "pill habit."

Just fine for persons too stout. H. P. Dunn.

His Mind in the Clouds.

Rev. George Harvest was to have been married to the daughter of Bishop Compton of London, but on the morning fixed for the ceremony got all about it and went off fishing. Much indignation was felt by the bride and her friends, and the engagement was broken off. But the reverend gentleman's second engagement was equally unsuccessful. Once more he forgot to come up to the church and lost his expectant bride in consequence.

Germans Predict
Another War to Re-
gain Lost Territory

BY EDWIN W. HULLINGER
(United Press Staff Correspondent)

With the American Army of Occupation, Coblenz, (By Mail)—"Germany will begin another war—perhaps within 20 years, certainly in the following decade—to win back the territory lost in this war.

"The old regime will be back in power in Berlin in a few years.

These two predictions express the almost unanimous conviction of the German population in the American-occupied zone along the Rhine. They were repeated to me time after time by citizens of every class, occupation or grade in life.

They are almost the only two issues concerning which there is absolutely no difference of opinion in "Uncle Sam's Germany." For on most matters the Rhineland presents a dismally bewildering of thought.

Thus spoke quiet farmers, leaning on their hoes in their fields, and obsequious shopkeepers, eager for the fruit of the proverbial American spending palm. Waiters, hotel porters, Everymen, well-to-do merchants, bankers, ex-officers, ex-privates, university students, laborers, pro-governmenters, monarchists or republicans—all answered as one man.

Many were unable to conceal their surprise that the question should even be raised.

Some gave answer sadly, as if resigning themselves to the inevitable; others, triumphantly, like a prize-fighter promising a comeback. Manner of delivery varied according to mood or temperament of speaker. But in what was said, there was no variation.

"The habit of obedience and submission to authority is too deeply drilled into the German mind to permit anything else—in this generation at least," a well-bred, thinking young chap explained. He professed—and with convincing sincerity—hatred of militarism and Prussianism from bitter personal experience. He hoped to escape it by going to America, as soon as he could learn English.

"The German people to-day are incapable of democratic self-government," he contended. "The nation is not accustomed to choosing for itself. It knows how to accept and obey commands from above. It does not possess the initiative necessary for self-rule. You cannot change an ingrained national trait in a few days. It will take a generation or two of education in a new school of thought.

"The Junkers will be back in control in two or three years—five at most.

"The average peasant reasons only in material results. He knows he was prosperous under the Kaiser. He

AMUSEMENTS

At the Best Today
"Josselyn's Wife," the photoplay starring Bessie Barriscale, is a film dramatization of the story by Kathleen Norris, the novelist, whose fiction has attained universal popularity.

The story contains all the elements that make for a superior photo-play, and in adapting it for the screen the scenario writer and producer have succeeded in retaining with remarkable and unusual fidelity the continuity and action which made the book one of the best sellers of the day. Miss Norris' stories contain that essential of dramatic material, sustained interest, which combined with cumulative effect and strongly defined personalities, make them ideal for screen purposes.

Probably no actress in the films is better qualified physically and historically to portray the sympathetic character of the Ellen Josselyn of Miss Norris' absorbing story, and the winsome Miss Barriscale has added another triumph to her long list of screen successes.

The same intelligence has been displayed in selecting the cast which supports Miss Barriscale. Nigel Barrie, Kathleen Kirkham, Joseph Dowling, Josephine Crowell, Helen Dunbar Thomas Guise, and last, but by no means least, Little Ben Alexander, the child prodigy of the screen, complete an exceptionally fine cast.

Bhagwan Singh
The British government has asked for the deportation of Bhagwan Singh called the "brains of the Hindu revolution." He is charged with treason. While the United States government is holding him under \$10,000 bail until the State Department decides whether he should be deported, he has been in Washington trying to interest the American Federation of Labor in his case. This photograph was taken in Washington.

was told everything. He was spared the trouble of thinking for himself.

"Now he has freedom—and hard times. He may enjoy his new liberty in a way."

My companion pointed to the "verboten" sign, lying face down on the turf of the beautiful Luisen Anglagon on the Rhine.

"That sign was upright before," he smiled. "Well, the peasant is glad it's down now. He enjoys walking on the forbidden grass.

"But when it comes to balancing these slight freedoms, accompanied as he will be told, by adversity, against the sterner but more prosperous paternalism of the old days, I don't think there is much doubt as to his choice."

"That is the way the Junker agitators will put it up to him."

Few, however, thought the monarchy will be restored. All admitted such a step would involve dangerous international possibilities.

The general idea seemed to be the Junkers would come back, but wearing the formal costumes of Republicans, although the net result would be the same.

The certainty of the "next war" was equally as deep-seated in the minds of the Germans.

All agreed it "must come" sooner or later as a natural course in human events.

"The German race is too tenacious to remain down long," a merchant declared. "It has been crushed repeatedly, always to rise again."

"We are down now. Have lost our colonies and large strips of purely German soil. (All insisted on this point—that the regions sliced from the Fatherland by the peace treaty were genuinely German territory.) We will rise again. And the next war will be a people's war. This one was a government affair. The people simply obeyed.

"The next one will be a fight demanded by the people themselves as a means of winning back their 'rightful heritage.' The motive force will come from below, not from above.

"Ach, it will be a REAL war!"

An Indispensable.

Some years ago, in a certain flagship, the commander had occasion to find fault with the admiral's cook, and awarded him three days of the punishment known at that period as Ten A. The admiral heard of the affair, and sent for the commander on the quarterdeck. "What do you mean by it?" stormed the incensed admiral. "Please to understand that I can get a hundred commanders like you, but only one cook like him!"

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the blood on the mucous surfaces of the system. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials.

**CITY CLERK
RESIGNS OFFICE**

Lloyd Greeno Accepts Position of Chief Clerk to Shop Superintendent H. A. Lyddon

AT SOUTH TACOMA, WASHINGTON

Leaves Monday Night for New Duties, Council to Select Successor at Tonight's Meeting

Stating he had been offered a better position as chief clerk to Shop Superintendent H. A. Lyddon of the Northern Pacific railway shops at South Tacoma, Wash., Lloyd Greeno, city clerk of Brainerd since May 17, has resigned after notifying Mayor F. E. Little and President of the City Council J. H. Strickler.

A special meeting of the council Monday evening will take up the selection of a successor.

Mr. Greeno was employed at Livingston, Mont., where he first applied for the city clerkship in Brainerd. His wife and children will remain at Brainerd for a time until he gets settled at Tacoma. He made many friends while in office who regret to see him leave.

FUNERAL SUNDAY

Funeral of Mrs. Chester Palmer was Held Sunday Afternoon at Walker

The funeral of Mrs. Chester Palmer, former Brainerd resident, was held at Walker Sunday afternoon, many friends of the family of Brainerd being present.

The Walker Pilot has this statement of her death:

Mrs. Chester Palmer, 31 years of age, died in St. Barnabas hospital in Minneapolis yesterday afternoon at 2 o'clock following an operation for goitre. Her husband, son of Mr. and Mrs. N. J. Palmer of Walker, died about 8½ months ago of pneumonia. The body will arrive in Walker Saturday night and interment will be made in the Walker cemetery Sunday afternoon, following brief funeral services.

The departed is survived by her mother, Mrs. Kelehan, two sisters, Mrs. Edward Reuban and Miss Ruby Kelehan and daughter Betty, five years of age. Her maiden name was Miss Phyllis Kelehan and she was married to Mr. Palmer nine years ago in Minneapolis.

ROLL OF HONOR

**AUTO BANDITS
KILLED DEPUTY**

Deputy Sheriff Edward Foley Shot and Killed and Marshal William Iliff Wounded

BY 3 BANDITS AT ELK RIVER

Car Stolen at St. Cloud and Elk River Notified of Their Coming and Battle Ensued

Sheriff Claus A. Theorin while on his way to Stillwater talked with Elk River authorities concerning the shooting there by bandits.

At 2 o'clock Sunday morning Deputy Sheriff Edward Foley was shot and killed and Marshal William Iliff was seriously wounded by three automobile bandits who were intercepted at the bridge at Elk River while supposed to be fleeing from St. Cloud with a stolen automobile.

On receipt of the wire from St. Cloud the sheriff and two men he had deputized guarded the bridge. At 2 a.m. a car answering the description showed up and the Elk River men ordered it to halt. The three bandits inside opened fire.

The Elk River men returned shots and succeeded in wounding one bandit. The three in the car leaped out for the bushes. In the car were found crowbars, jimmies and nitroglycerine, showing the bandits had taken the car to commit a bank robbery at some point. The sheriff organized a posse of 150 men and is searching the country.

MAN WHO WALKED AWAY BACK AT REFORMATORY

(St. Cloud Journal-Press)

A few weeks ago, James DeRoche, a trusted inmate of the reformatory, who was one of the farm colony, made his escape, which was a comparatively easy matter, as the farm is outside the reformatory buildings. Superintendent Scott got track of him, and found him at a camp at Round Lake, north of Brainerd, and James is now back at the institution. He was sent from Brainerd on a maximum ten year sentence, and will probably have to serve out his full term. Supt. Scott had to walk through the woods for ten miles to reach the camp, and he thinks ten years will not be too long a term for the returned man to serve.

Cut this Out—It is Worth Money DON'T MISS THIS. Cut out this slip enclose with 5c to Foley & Co., 2835 Sheffield Ave., Chicago, Ill., writing your name and address clearly. You will receive in return a trial package containing Foley's Kidney and Tar Compound, for coughs, colds and croup, Foley Kidney Pills and Foley Cathartic Tablets. H. P. Dunn, mwt.

ROLL OF HONOR

3RD WAS J. TINKELPAUGH

Prof. J. A. Wilson Makes Recommendations in His Report at Chamber of Commerce

Sheriff Claus A. Theorin while on his way to Stillwater talked with Elk River authorities concerning the shooting there by bandits.

At 2 o'clock Sunday morning Deputy Sheriff Edward Foley was shot and killed and Marshal William Iliff was seriously wounded by three automobile bandits who were intercepted at the bridge at Elk River while supposed to be fleeing from St. Cloud with a stolen automobile.

On receipt of the wire from St. Cloud the sheriff and two men he had deputized guarded the bridge.

At 2 a.m. a car answering the description showed up and the Elk River men ordered it to halt. The three bandits inside opened fire.

The Elk River men returned shots and succeeded in wounding one bandit. The three in the car leaped out for the bushes. In the car were found crowbars, jimmies and nitroglycerine, showing the bandits had taken the car to commit a bank robbery at some point. The sheriff organized a posse of 150 men and is searching the country.

The inspection was made at such a late date that the early varieties of vegetables such as radishes, lettuce and some onions were not in evidence, having been consumed on the family table. The removal of these vegetables left the plot with a vacant look, weeds being up and making it appear as though the pupil gardener had neglected his plot, which was not the case. Accordingly value of products could not be estimated.

Mr. Wilson stated that the projectors of the contest and the inspectors have more to learn than the children gardeners. The instructions should be more practical and more helpful to the children. Instructions should be given on some convenient plot of ground.

Inspectors should be chosen from among those who have cars or other speedy means of visiting the gardens. The first inspection should be made not later than June 1, the second about June 20, the third July 15 and the last about August 15. If the contests can be carried on as suggested or in some better way, they may be made a source of pleasure and profit to all concerned.

TRIAL OF PANDOLFO AND 12 OTHERS OCT. 28

Chicago, Sept. 29—Federal Judge Landis yesterday set Oct. 28 as the date of opening of the trial of S. C. Pandolfo, head of the Pan Motor company of St. Cloud, Minn., and 12 other officials and promoters of the company on charges of conspiracy to use the mails in a scheme to defraud. The charges are based on the sale of stock in the company. The company is said to be prepared to make a vigorous defense.

SMART BLOUSES IN FLANNEL

All White or With Striped Colorings They Are to Be a Rival of the Sweater.

Many of the smartest of the new fall-blouses show panel arrangements, either back or front, and some of them have both back and front panels.

In the range of strictly tailored blouses now being brought out for fall some very smart flannel models are being shown.

Flannel blouses have always been rather highly regarded for sports wear, but they were rarely seen last year, manufacturers reporting that fabrics were too difficult to secure. All-white blouses are featured, but those made of white flannel striped in dainty pastel colorings are decidedly the best looking. The flannel blouse trimmed with collar and cuffs, and sometimes pocket flaps of sangria in a color to match the stripe in the flannel is a smart novelty, and for golf or other sports wear promises to be a rival of the sweater.

Energy From Common Powder. Common black sporting powder is a source of momentary energy in some railway machine shops and is used for such purposes as loosening nuts and bolts, breaking up scrap iron and steel, forcing a rusted locomotive piston, and breaking metal cooled in a furnace. It is employed in steel guns 5 to 12 inches long and of proportionate diameter. The powder is held by a plunger without wad, and it is fired with the mouth of the gun about an inch from the work. An ounce charge is the average required for an ordinary locomotive nut or bolt.

NATURAL FISH HATCHERY MARVEL

Named After its Locator, Deputy Game Warden A. P. Cardle, "The Cardle Hatchery"

BLACK BASS, CRAPPIES, ETC.

Eight Large Barrels of Them Transplanted from Gull Lake Dam to Gull Lake

+++++

Nature has beaten science +

in the fish hatchery business +

Crow Wing county. The hatchery established by the state at +

Deerwood failed because of the +

nature of the stream bottom. +

The natural fish hatchery at +

Gull lake dam located by Deputy +

Game Warden A. P. Cardle +

has science backed off the +

boards and excels in produc- +

tion and quality anything man +

could foster or develop. +

+++++

A natural fish hatchery, rivaling anything of the kind in this or any other state both in quality and quantity of production, has been located by Deputy Fish and Game Warden A. P. Cardle and Friday yielded eight large barrels containing approximately 50,000 of fine black bass, crappie and blue gill fry as ever went through the transplanting process, or flipped their little tails in youthful delight at the privilege of being born in the waters of a northern Minnesota lake. This quantity of fry is but a "sample" of what the "Cardle hatchery" is producing and the catch made Friday can be duplicated at any time by willing sportsmen who are ready to follow Mr. Cardle's directions.

Worth a Million

The hatchery includes about eight miles of over-flow lands of the Gull river between the federal dam near Gull lake and the Stoner dam to the south of it. In this natural breeding ground, mother and father bass have for years so faithfully followed the Biblical admonition of "be ye fruitful and multiply" or the recommendation of the late Colonel Roosevelt to raise large families that as a consequence, the entire stretch of eight miles is fairly alive with as fine an army of black bass youngsters, ranging from 2 to 6 inches in length, fat little crappies and blue gills as the eyes of a true sportsman ever gazed upon.

Caught at Dam

The fry have taken possession of the pool below the federal dam and are rubbing their noses, myriads of them, against the stone abutments or lining the apron of the fish runway in a vain attempt to get over the dam into Gull lake and thence into the numerous other lakes having thoroughfares connecting them with it. Deputy Warden Cardle, accompanied by R. H. Rehl, C. A. Lagerquist and F. T. Lincoln went out to the dam Friday morning to make the first official haul from this wonderful hatchery. William McNaughton joined them at the dam and the crew was kept busy most of the day dipping out fry, sorting and carrying them out into Gull lake in large barrels in the McNaughton launch.

Cardle Honored

In honor of his good work and the fact that the transplanting of the stock is his idea, the place where the fry is located has been christened "The Cardle Hatchery" and the attention of State Fish and Game Warden Avery will be called to it with considerable pride by northern Minnesota anglers and others who are interested in stocking the lakes with fish.

Another trip will be made to the hatchery soon, and more fry taken out and placed elsewhere.

Sure Relief

BELL-ANS
FOR INDIGESTION

Fine Specimens

The fry taken were as fine specimens of the varieties named as have ever been seen in this part of the state and are far ahead of anything ever shipped into northern Minnesota from state hatcheries to stock the lakes of this section. They are much harder, larger sized and fully acclimated to the waters here. All who are interested in stocking the lakes of their particular locality are urged to act at once, notify Mr. Cardle and arrange a day in which to take the fry. The quantity is unlimited and the pool below the dam seems to fill up with another army of the little fellows just as soon as a lift of the nets is made. It is one of the most remarkable sights ever af-

LABOR NEWS

BLAME STOCK JOBBERS
FOR HIGH COST LIVING

Boston, Sept. 29—Stock jobbers and gambling, and forcing the people to pay interest on fictitious wealth are responsible for high prices of food and other necessities, says Thomas W. Lawson, broker and author, who presents his theory in a vigorous manner in a local newspaper.

"The cause of high cost living is stock gambling—the main, the foundation cause," he says. "Stock gambling is as surely the cause of high cost living, as the sun the cause of heat."

"You will ask if this is so why do not the people tackle the vital problem from the stock gamble angle instead of spending time along the present lines of agitation."

"The answer is, monied people are the beneficiaries of high cost living, of stock gambling, so the first duty of the rich, when high cost living is agitated, is to do what they can to aid the system in steering the people off into the wilderness of logic that they will become, as they are today, bewildered to distraction—to the point where they will accept any fool reason instead of the real one."

"The system has unlimited expense money at its command, hundreds and hundreds of millions annually. It has a large part of the press to spread it 'fool 'em' propaganda. Thousands of the very brightest men are on its pay roll to spread its fallacies, and hundreds of thousands of volunteer agents, bank, insurance and corporation men all over the country to preach its 'muddle 'em' arguments. Then it has senators and congressmen, to say nothing of governors, mayors and town meeting blatherskites to prove the whiteness of its blackest pitch."

"Today the nation's 'wealth' is more than double \$275,000,000,000. Of this additional \$144,000,000,000 which came into existence because of the world war, more than \$100,000,000,000 is watertrick, fraud-made wealth. The annual interest and dividends on this fraud capital is in round figures, more than \$5,600,000,000. It's this additional \$5,600,000,000 that has sent the cost of living up to its present prohibitive figures."

"If this \$100,000,000,000 had not been created, this \$5,000,000,000 could not be collected. It could not be added to the price of what the people consume and the price today of the things they consume would be \$5,000,000,000 less and the cost of living would today be at least half what it is."

To Test Right to Strike

Racine, Wis., Sept. 27—A trial which involves the right of unions to strike and what damages can be collected for so doing is to be tested in the courts here. Last spring Machinists' union No. 437 demanded recognition, higher wages and shorter hours, and when the Webster Electric company refused to meet these demands the union machinists in the company's employ struck. Since then the union has continued the fight in the ordinary way. The company has entered suit against the union and filed a statement that "it desires to recover damages against the defendants by reason of a wrongful and unlawful scheme, combination and conspiracy entered into by them for the purpose of doing injury to the plaintiff's property and injuring and destroying its business by threatening and intimidating its employees and coercing them by force and violence and unlawful means to leave the plaintiff's employ. That due to this the products of the plaintiff's factory have been reduced and its profits diminished."

Employers Force Issue

Washington, Sept. 27—The labor department officials report that the number of men actually idle through strikes probably number 200,000 to 500,000 at the present time.

Refusal of employers to recognize the union is the principal cause of strikes which the labor department is attempting to mediate, indicating, officials say, that organized labor is pushing its campaign for union principles. In some of the strikes wage demands is a secondary cause. In most, however, the only demand is the right of collective bargaining.

Getting Children Ready for School
Common cold are infectious and it is wrong to send a snuffling, sneezing, coughing child to school to spread disease germs among other little ones. Foley's Honey and Tar relieves coughs and colds, loosens phlegm and mucus, and coats raw, irritated membranes with a healing, soothing medicine. Contains no opiates. H. P. Dunn.

Brainerd

Who Gets the Profit from Rents?

The owner, of course, else why should he build? Furnishing homes for others is not philanthropy with the average investor who rightfully expects a profit.

If rent brings profit to a landlord, why not be one yourself? Why not build a home to suit your needs and desires? Then let your rent apply on the purchase.

We can help you select the right design, the most economical materials and a reliable builder. And, if you like, we'll be glad to put you in touch with those who will help you with the finances.
